5. Special Instructions:
 Upon activation for an incident/exercise, the COMU will generate an incident-specific 205 from the 217As in the WebEOC Advanced File Library for the shared ARES/RACES>ICS 217A>SEOC folder.

This 205 is to be used until the incident-specific 205 has been promulgated. Non-secondary channels will be initially monitored by the SEOC.
